Continuation of Substance of Interview including description of the general nature of what was discussed:

In response to Applicant's Appeal Brief filed 10/14/2005, an Appeal Conference was held on 12/22/05 between Examiner Moore and Supervisory Patent Examiners Seema Rao and Chau Nguyen. Arguments raised by Applicant in the Brief were discussed. The main argument, that Kaplan (U.S. 6,144,641) does not teach physically attaching a "tag" to a digital message, was the main issue under review. It was agreed that Kaplan does not teach physically attaching a "tag" to a digital message. However, it was also agreed that the claim language did not clearly indicate this feature.

Mr. Armijo was then contacted to discuss some possible amendments to the claims to more clearly indicate this feature of the invention. Suggestions by the Examiner were agreed to by Mr. Armijo. These claim amendments are provided in the attached Examiner's Amendment.
